2. Waste transport must be performed with presence of transport-accompanying documents in the same transport vehicle.
3. Consignee must not allow transport of dangerous load unless it is permitted to transport it with the given transport vehicle.
4. During transportation, consignee must check for missing load, gaps and breakages in the packaging; for exceeding the total allowed loading of the transport vehicle.
5. It has to be assured that transport vehicles are in good repair, and are as well marked, labelled and signaled according to the international regulations for “dangerous goods”.
